DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 29 March 2004 has been considered for this Office Action.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Fields et al. (US 5,351,370).

A housing comprises a sack (37) and a generally flat portion (Figs. 1, 6 and 7).
The sack has a volume sufficient contain a portion of the length of strap (C. 3,L. 58-62).
The sack is foldable upon the flat portion and securable thereon (Figs. 1, 6 and 7).

The housing further comprises a pair of spaced slits (ends of chamber formed by 25) in the generally flat portion of the housing (Figs. 1, 6 and 7).

Each of said slits receives a portion of the length of strap (Fig. 1).

The generally flat portion has opposite free ends (where 26 and 27 are located). The opposite free ends are folded onto one another to enclose the sack (Figs. 1, 6 and 7).

Allowable Subject Matter

4. Claims 5-8 are allowed.
5. The following is an examiner's statement of reasons for allowance: Fields discloses a housing having all the features mentioned above for the rejection of claims 1-4. Fields fails to disclose the combination of housing with a tie down device where the tie down device has a locking mechanism and a strap with the sack receiving the excess strap after the locking mechanism is installed and the flat portion enclosing the locking mechanism. Accordingly, it would not have been obvious to one having ordinary skill in the art at the time the invention was made to have a housing having a sack and flat portion in combination with a cargo tie down assembly comprising a locking mechanism and a strap where the housing secure the loose end of the strap after the cargo has been secured and the flat portion also serves as an additional protection for the locking mechanism since it surrounds the locking mechanism.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Saenz (US 4,699,401), Petuese (US 4,878,277), Tsai (US 4,937,920), Smith (US 4,961,251), Butler (US 5,009,346), Fields et al. (US 5,351,370), Dalen (US 5,402,557), Hale (US D 382,995), Williams (US 5,947,354), Powers (US 6,138,331), MacNeil (US 6,318,621 B1), LaCoste (SU 6,651,854 B1) and Gorham, Jr. (US D 489,890 S) are cited to show state of the art with respect to a housing having some of the features being claimed by the current application.

processing and delivery time. For a complete list of correspondence **not** permitted by facsimile transmission, see MPEP § 502.01. In general, most responses and/or amendments not requiring a fee, as well as those requiring a fee but charging such fee to a deposit account, can be submitted by facsimile transmission. Responses requiring a fee that the applicant is paying by check **should not be** submitted by facsimile transmission separately from the check.

Responses submitted by facsimile transmission should include a Certificate of Transmission (MPEP § 512). The following is an example of the format the certification might take:

I hereby certify that this correspondence is being facsimile transmitted to
the Patent and Trademark Office (Fax No. (703) 872-9306) on (Date) .

(Typed or printed name of person signing this certificate)

(Signature)

If your response is submitted by facsimile transmission, you are hereby reminded that the original should be retained as evidence of authenticity (37 CFR 1.4 and MPEP § 502.02). Please do not separately mail the original or another copy unless required by the Patent and Trademark Office. Submission of the original response or a follow-up copy of the response has been transmitted by facsimile will cause further unnecessary delays in the processing of your application, duplicate responses where fees are charged to a deposit account may result in those fees being charged twice.
